For over 155 years, Centenary University has been preparing students for regional and global professions of critical thought and purposeful action. While the school has changed with the times over the years, our laser focus on student opportunity and success, along with our involved, supportive, experienced faculty, has remained constant. Centenary is an affordable option—helping you decide your career goal and assisting you to get there. Over 95% of our students receive financial aid and scholarships and 98% of our students are employed or in graduate school within nine months of graduation. During the pandemic, we offered in-person, online and hybrid classes to make sure our students had access to the traditional college experience and could pursue their educations from anywhere.

With more than 70 student clubs and activities, and a championship-level Division III athletics program, Centenary University provides students with opportunities to make Centenary their home. Centenary University's main campus is located in the Skylands region, in the heart of New Jersey—allowing access to New York City and Philadelphia. Our Equestrian Riding Center in Long Valley offers an additional learning venue.

We hope you decide to explore the rich variety of programs, activities and experiences a Centenary education offers. We also hope you consider choosing Centenary University to become a part of our great legacy.

Sincerely,

Dr. Bruce Murphy  
*President*
